

# NEXTGEN PROTEINS

NEXT GENERATION PROTEIN CONFERENCE

## Bremerhaven, 07./08.09.2023

ttz Bremerhaven

# Conference Programm

The focus of the conference will be: alternative protein sources, e.g. insects, algae, Single Cells, plant-based and cellular agriculture.

- Raw materials and technologies for the production of alternative proteins, new and emerging resources
- Application of alternative proteins in food, feed and ingredients products, human and animal nutrition
- Safety of alternative proteins (e.g. current safety requirements; challenges for food security)
- Regulation of alternative proteins (e.g. legal/regulatory landscape and challenges in the EU; governmental dependencies within and across countries)
- Sustainability of alternative proteins
- Economic feasibility of alternative protein production
- Consumer acceptance and trust in alternative proteins

# 14 Sessions – overall 43 presentations + 7 Key Notes + Roundtable

## Food related sessions

1. Protein Sources
2. Safety and analytical aspects of alternative proteins
3. Alternative Proteins in ready to eat meals & snacks
4. Alternative Proteins in meat and dairy alternatives
5. Extrusion applications for alternative protein production
6. Food technology applications for alternative protein production I
7. Food technology applications for alternative protein production II

## Feed related sessions

8. Protein sources
9. Alternative proteins in fish feed
10. Alternative proteins in feed

## Market & Consumer sessions

11. Legal and societal frameworks for research & innovations of alternative proteins
12. Consumer acceptance & attitudes
13. Market Situation
14. Innovation and Sustainability of alternative proteins

# Our Keynote Speakers

**Nicole Jansen**

**Ivo Rzegotta**

**Alexander Stephan**

**Chris van Hoff**

**Prof. Dr. Karen  
Wiltshire**

**Felix Schottroff**

**Hanno Slawski**

# Roundtable „How can alternative proteins contribute to the future of food?“

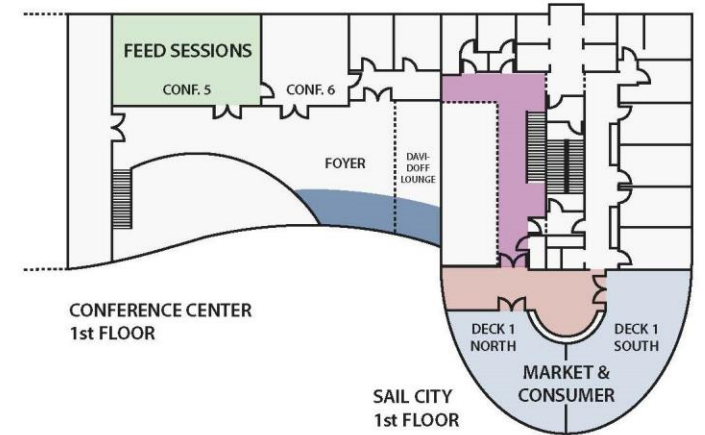

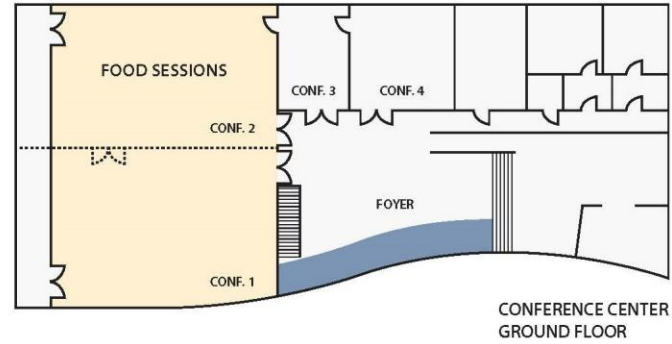

## Panelists

1. Svandis Svavarsdottir – Minister of Food, Agriculture and Fisheries, Government of Iceland
2. Nicole Jansen – Innova Market Insights
3. Patrick Bühr – Leitung Forschung und Entwicklung, Rügenwalder Mühle Carl Müller GmbH & Co. KG
4. Cindy Schoumacher, Policy Officer, European Commission DG Research & Innovation (online participation)
